Statement in Support of Superintend Andrea Kane

We issue this statement in support of Queens Anne County Superintendent of Schools, Dr. Andrea Kane. As you are aware, there has been a lot of social injustice and unrest in our country during the past year. Due to the killings of unarmed African Americans, many citizens in our country have taken to the streets to march in protest. Furthermore, many superintendents across our country have taken a stance against racial injustices and police brutality.

We are honored to write this letter of support of your superintendent of school, as she stands against injustices, and support all of the students, in Queens Anne County Public Schools. She has demonstrated courage and dedication to ensure that all students in Queens Anne County Public Schools are treated with dignity and respect.

Dr. Kane has demonstrated significant leadership during her tenure in Queens Anne County Public Schools. We have followed her accomplishments over the past few years. She has received recognition via nominations from state organizations and publications. These recognitions are attributed to the successes of being a courageous leader for all students, especially students of color.

We ask that you show your support of the actions of your superintendent of schools. She has exhibited true leadership during an era of major crises. We ask that you join us and other organizations in the fight about injustice and inequality. When you see it, you must speak against it and take action. Please do so by speaking up on behalf of your superintendent and acting to denounce racial inequities in Queens Anne County Public Schools and America.
